DARK FORCE

In his book Dark Force – Bill Bean painfully describes in terrifying detail the paranormal events that tormented his family in their Glen Burnie, Maryland home. Bill Bean stated, "My family was literally torn apart by an evil force that co-existed among us. The activity began as noises and gradually escalated into violent physical attacks on us by the entities."

In 1970, the Bean family moved into a modest three bedroom ranch style house located in Glen Burnie, Maryland. The community was called, "Harundale." Bill recalled his first memories of the house were frightening ones. "It had a very foreboding and ominous feel from the start," he said. What the family didn't know is that a demonic force already occupied their new home. As disturbing as some of the content in Dark Force is there's a very powerful message of hope and faith that has affected many readers in a positive way.
